

Workshop Bundi, Disentis

Client: Corsin Bundi
Architect: Vincenz + Weishaupt Architekten
Structural Eng.: Iso Mazetta, Trun
Contractor: Berther Bauunternehmung

Execution details

Product: CBCM-E-180
Surface: 350 m²
Max. span.: 11,4 m
Slab thickness: 30 cm

Benefits

Main reason: span weight
Concrete reduction: ~29 m³
Load reduction: ~73 to
Reduction of CO₂ emissions: ~7 to

Special features

Large span combined with elevated loads
Slim construction to optimize building and interior height

Year of completion

2009
