

Officebuilding Palazzina, Bassona

Owner: Japanparts Srl
Architect: Studio Mazza, Verona
Structural Eng.: Studio Mazza, Verona
Contractor: Serpelloni Spa, Villafranca

Execution details

Product: CBLM-X
Slab surface: ~1'100 m²
Max. span: 12,60 m
Slab thickness: 37 cm

Benefits

Main reason: Wide span
Pillars in the centre area have been eliminated
No need of post-tensioning

Special features

Initially it was planned to have a beam to the free border of a wide span
High requirements on deflection

Year of completion

2006
